THE 3RD WEEK OF JULY WE HAVE ORDER DEADLINE CHANGES!!! SEE PAGE 47!

POLICIES & PROCEDURES

1. THE MINIMUM ORDER IS \$350, not including service charge, taxes or bottle deposits (some locations may require a higher minimum). ALL ORDERS ARE COD. Special arrangements **ONLY** by Julie.

2. ORDERS MAY BE PLACED between 8:30 AM and 4:00 PM Monday through Friday. Call orders in early enough to be completed by 4:00 as there is much to do before our day is finished. Place add-ons early and in their entirety to ensure that we will be able to get them on your order.

3. COLLATE YOUR ORDERS before calling them in, ordering total quantities of each item. Multiple entries cause errors and confusion.

4. REPACKS: Items with one * are repacked in 5# increments for an additional **25 cents per pound**. Two ** indicate 10# increments with an additional charge of **15 cents per pound**. Sale prices apply to full quantities only. Repacks revert to the regular price plus the repacking charge.

5. CHEAPER BY THE CASE: In most cases, an item sold by the each, or piece, will be cheaper by the case, **generally 4 % less by the case**. Ask if there is a case discount price when ordering. Sale discounts which are greater override the case discount.

6. PRICES CAN CHANGE WITHOUT NOTICE, as prices from our suppliers fluctuate. We try to inform you of changes as you order.

7. SALES TAX: We **MUST** have your tax exempt number on file in our office in order to sell you taxable items without charging sales tax.

8. WE TRY TO BE ACCURATE in our descriptions and ingredients. It is important to us to represent products honestly but we cannot be responsible for typographical errors or omissions. Let us know if we are in error and we will try to correct the mistake.

9. DELIVERY TIMES ARE APPROXIMATE. It is impossible to estimate your delivery time until all the orders for a run are placed. Call the day of or the day before your delivery and we will try to approximate your delivery time. When inquiring about delivery schedules and times, please refer to the route number which appears on the heading of every invoice. Our drivers will do their best to let you know when to expect them and will call you ahead if you request this service when ordering. You must provide an alternate contact person and phone number if you will be unreachable the day of delivery. We will try to reach you; please try to be reachable! If you have any questions, please inquire. We'll help if we can.

10. PLEASE HELP THE DRIVERS UNLOAD YOUR ORDER. They have come a long way and they have a long way to go. Anticipate the truck's arrival by scheduling personnel to help the driver unload the truck and provide an adequate sight for unloading the truck that is level and off the road if possible. Walkways and stairs should be free of ice, snow and other hazards to minimize the risk of injury to our drivers and those helping them. We reserve the right to not make a delivery if doing so endangers the truck or the driver. Both are valuable to us, so we ask for your understanding if weather, road or other conditions prevent us from making your delivery. Safety is our primary concern. We reserve the right to assess a **DELIVERY CHARGE** to accounts that do not have help for our drivers. This is a case by case assessment. You will be notified if we feel that it is appropriate to apply this charge.

***** Please verify a piece count with the driver.**

11. WE CANNOT ACCEPT CASH PAYMENTS: Please do not pay our drivers in cash. They will not be able to accept cash, so payments must be made by check or money order. If this presents a problem, please contact customer service to make other payment arrangements.

12. BAD CHECKS: We charge \$15.00 for each bounced check. Please communicate with us and avoid having your checks returned.

13. SPECIAL ORDER POLICY: Please **BE SURE** that the items you special order with us, are in fact what you want. You must provide accurate and complete information about the product. We do provide pricing on special order items.

a) All special orders are pre-pay. We will not place your order unless we have received payment from you.

b) The only exception is for regular, weekly customers who may circumvent this process **ONLY** if we have a commitment form signed by the store manager. We will automatically bill your account for the product regardless of whether you or your customer changes their mind. There are no exceptions here, so please be sure about special orders before you make a commitment. Once we place this order with our vendor, the product belongs to you- **NO EXCEPTIONS.**

14. RETURN POLICY: If there are errors, damages or missing items on the order being delivered, our drivers are authorized to make the necessary invoice adjustments. Any problems with your order after the driver has left **MUST** be called into customer service **WITHIN 15 DAYS**. Be sure to ask for your credit confirmation number from the representative who assists you. The confirmation number will help expedite the credit process.

We will **not be responsible for any freight charges** on product returned by any means other than our trucks. If you get delivery via any common carrier, please be aware that you will **NOT** be able to return unwanted or damaged product. Please sign the bill of lading listing damages. We will file a claim with the trucking company who delivered your order.

Returns do not guarantee credit will be issued. All claims must be verified by our internal staff. If claims cannot be substantiated, product will be returned on your next order at no additional charge.

*****PLEASE NOTE:** We cannot accept returns on books, CDs or apparel since doing so diminishes the quality of the merchandise. Exchange CDs directly with Putumayo.

Our drivers are not allowed to pick up returns from a previous shipment unless you have called our customer service department for a credit authorization number. The driver must have an authorization form pre-approving pick up of product. Credits will not be issued on product returned without prior authorization.

*****PLEASE NOTE:** All products **MUST** be returned in the original packaging and in resalable condition. Price stickers must be removed prior to returning and products must be in the original lot size sold. Organic repacked product must have the AB label with the lot number. **NO EXCEPTIONS WILL BE ALLOWED.**

Associate Buyers reserves the right to charge a 10% restocking fee on all misordered or overstocked items. All credits are issued upon receipt of the merchandise to our warehouse for evaluation.

15. ADDRESS YOUR CONCERNS, questions or return information to the same customer service representative until the issue is resolved. Please ask for their name if we neglect to give it to you. Any follow-up calls that may be necessary should be directed to the same person unless they are unavailable.

16. BOTTLE POLICY: Deposits at 5 cents per bottle or can on carbonated beverages. We will pick up empties in Maine, Vermont, Massachusetts. Maine bottle return also includes 32oz glass juice bottles. Please put them back, rinsed, in their original cartons. We can only be responsible for cans and bottles from products which you purchase from us. NH does not require a bottle deposit.

17. BOTTLE RETURNS should be made to Associated Buyers whenever possible. All bottles must be washed out and free of their caps before our driver will pick them up. We will not pick up or give credit for returns which are not properly cleaned. State return bottle laws include "CLEAN" as a condition of return, and we will enforce the rules. Redemption Centers are difficult for us to pick up from, therefore we prefer receiving bottles and cans back from our customers. **NO CAPS**

18. LET US KNOW if there is anything you would like us to carry. We'd be glad to check it out.

19. OUR INVENTORY LIST IS AVAILABLE IN ELECTRONIC FORMAT, (Word, Text, Excel, or PDF- please specify one) that we could email to you upon request. Please call Customer Service or email them at info@assocbuyers.com. (please note that a PDF of our complete catalog is a very large file!)

EcoBlends Insect Repellent Single Use

EcoBlends is a DEET-FREE, Natural insect repellent clinically PROVEN to repel biting insects for up to 4 hours.

Created with a selected blend of essential oils and based on Native American herbal wisdom, EcoBlends is a superior insect repellent and safe for children, animals and adults.

Unlike other insect repellents, EcoBlends is safe for the earth because it's derived from herbs and plants. EcoBlends popularity comes from its effectiveness, but it also has a refreshing aroma and nourishes, protects and softens your skin.

EcoBlends develops and distributes helpful, natural products that are safe and healthy for the environment, for the people who use them, and for the pets and animals they care for. EcoBlends is committed to honoring the Earth through responsible policies that support sustainable growth and protect our planet.

Founded by Native Maliseet & Passamaquoddy Alison Lewey, Based on Native herbal wisdom and a respect for the environment, Eco-Blends has become a leader in the insect repellent industry with the introduction of EcoBlends.

EcoBlend Insect Repellent - single use

EcoBlends's Essential Oils Include: Rosemary, Thyme, Lemongrass, Geranium, Peppermint, The Soybean (GMO FREE) has 62 proteins, vitamin E, Wheat germ, and the 10 % Essential Oils

About Moo Kids Chocolate

Just launched STAR-D certified Moo Kids Chocolate was inspired by founder, Jackie Ekholm's, frequent trips to the Swiss Alps. There, she and her husband found a premium, organic milk chocolate, wholesome enough to bring back to the States for their children. Soon after the Ekholm children questioned why they were only allowed to eat Swiss chocolate, Jackie was enthused about creating her own line of healthy, all-natural, organic milk chocolate, and Moo Kids Chocolate was born! The cutesy packaged all-organic Moo Kids Chocolate bars, geared to children (but appreciated by adults, as well!) come in four varieties-Rice Crisps, Granola, Corn Flakes, and Graham Cracker.

The Moo Story

"The idea to create Moo Chocolates came to me while hiking one summer with my children in the Swiss Alps. Beautiful!

During a break by a meadow with the sound of cow bells all around us, we snacked on a delicious all natural Swiss chocolate bar for kids. It was really good quality chocolate, and it had just the right amount of cereal inside. It seemed to go perfectly with the sun and the clean crisp mountain air.

The kids absolutely loved it, and my son was wondering why they don't have anything like it for kids in the U.S.

I decided there and then that I would make it my mission back home to create the best quality delicious healthy chocolates especially for kids.

We have always loved Swiss cows, so we decided to use a cow as our symbol, and to call it Moo!

And that was the beginning.....

Have a Moovelous day!"

- Jackie Ekholm

Vermont Coffee Company

"Vermont Coffee Company is a small-town roaster located in Middlebury, Vermont, on the edge of the Green Mountains. We serve our local and regional markets with fresh coffee, roasted one day and shipped to customers the next. We treat coffee like produce, and we want you to enjoy it fresh.

We only use 100% certified organic, fair trade coffees, and we've developed a roasting style that creates Big, Bold Coffee. For us, fair trade is a philosophy, not a flavor.

Our motto, "Coffee Roasted for Friends," is more than a slogan. It's really our mission, our reason for being in this business. Coffee is a social stimulus that brings people together to share ideas and stories, and when people come together, a community is formed and friends are made."

Iced Coffee Original Concentrate

"We know cold"

From the land of the frozen north comes the world's best iced coffee. Serious Iced Coffee. It's Big and Bold and makes a perfect cup every time. This is real coffee, double-strength... it always stands up to ice. No mess. No fuss. Just add water and serve.

Ingredients: Triple-filtered water, fair trade organic coffee.

HONEST

BEVERAGES

CULTURAL EXPERIENCE

Honest Kombucha is a cultural experience; from the uniquely tangy taste, and its ancient roots in Russia and China, to the probiotic cultures floating in each bottle. Once referred to as "elixir of life," the health benefits of kombucha have been enjoyed by many cultures for centuries.

Honest Kombucha is organic, Fair Trade Certified(tm) black tea fermented with active cultures of bacteria, yeasts and sugar that feed on the caffeine and tannins from the tea.

Honest Kombucha is harvested when the raw bacteria cultures are at their peak, resulting in active enzymes, polyphenols and organic acids (like gluconic acid and glucuronic acid), which are believed to aid in digestion and support a healthy G.I. tract.

TASTY EXPERIENCE

The experience begins when you first twist the cap off the bottle - the sweet aroma of peaches, apples or other exotic fruits float up with the bubbles and tickle your nose. The brew's natural effervescence is invigorating and complements the sweet and tart essences of fruit. The fizziness is created by the natural fermentation of organic, Fair Trade Certified black tea and a touch of organic cane sugar. There are five delicious varieties, appealing to a variety of palates - Berry Hibiscus, Lemon Ginger, Peach Mango and our newest additions, Maqui Berry Grapefruit and Apple Jasmine. Honest Kombucha has a uniquely tangy taste that is surprisingly addictive!

HEALTHY EXPERIENCE

We start by using certified organic tea leaves; then initiate the fermentation process by introducing active probiotic cultures that are believed to aid in digestion and support a healthy G.I. tract. The resulting organic acids and polyphenols are believed to detoxify, energize and support overall immunity and well-being.

At only 35 calories and 7 grams of sugar per 8 fl. oz. serving, Honest Kombucha is an invigoratingly refreshing healthy take on tea.

FAIR TRADE & ORGANIC

Honest Kombucha is brewed with certified organic ingredients, which means it is grown without the use of chemical pesticides and fertilizers that can be harmful to the environment and our bodies. Honest Kombucha is Fair Trade Certified(tm) by TransFair USA, which ensures that strict economic, social and environmental guidelines are met in the production and harvesting of the tea and that the people who pick the tea leaves receive extra income from the sales of the tea.

Apple Jasmine

Ingredients: Organic raw kombucha (purified water, organic cane sugar, Fair Trade Certified(tm) organic tea & active cultures), organic apple juice concentrate, organic natural flavor and natural jasmine extract. Contains Less Than 1% Juice.

About Gladstone's Under the Sun

Gladstone's Under The Sun, makers of The Caviar of Maine, is a family company nestled in the midst of Acadia National Park and the blueberry downs of Downeast Maine. Inspired by the miles of hiking, biking, and kayaking opportunities, their family created the Maine Munchies product line that invites all to "share in a healthy snack with the call of Maine." Their goal is to produce and promote the healthiest snack foods by using as many Maine agricultural ingredients as possible. Wild Maine Blueberries and Maine Cranberries are principal ingredients.

Gladstone's is a specialty food company with the goal of producing and promoting healthy foods made with locally grown wild blueberries. The Company was founded in 2001 in Craig and Rosemary Gladstone's kitchen located in Bar Harbor, Maine. From the beginning, the Gladstone's were dedicated to using wild Maine blueberries in their products, but, at that time the only wild blueberries being dried in Maine were infused with high fructose corn syrup. Determined to develop and implement a healthier and "greener" processing method, seven years and five locations later, the Company put their own process into production in October 2008. Their wild blueberry product line, The Caviar of Maine, offer premium all natural fruit products with very low sugar content.

Gladstone's Under The Sun is located in the center of the world's largest area for growing Wild Blueberries. Using their own proprietary method, their dried blueberries have half the sugar content and twice the shelf life of other dried fruit products now on the market.

About Gladstone's Under the Sun continued

Given the very high antioxidant levels and delicious flavor, this product makes the perfect choice packaged or in bulk, whichever the retailer and their customers prefer.

Gladstone's Under The Sun is also located in an area of Maine that has a shortage of year round employment opportunities. Not to be dependent on the seasonal tourist industry while being able to deliver the natural goodness of Maine to health conscious consumers year round was very important to the Gladstones. This goal has been achieved, with products being shipped to all fifty states and several countries overseas year round. The Company's dried fruits and mixes have been very popular with our troops in Iraq and Afghanistan; we recently learned one unit in Iraq used our snacks as the ante in their poker games.

In addition to the dried blueberries, Gladstone's Under The Sun introduced a moist wild blueberry product in a jar in March 2009. The naturally sweet flavor of the wild blueberries bursts in your mouth and delivers a taste and texture that is the next best thing to fresh! These moist wild blueberries can be the centerpiece of healthy hors d'oeuvres, salads, main dishes and desserts and are available in Food Service sizes. In February of 2010, the Company introduced another jarred product; the same moist wild blueberries packed in an organic maple syrup. More wild blueberries than syrup, the product makes the perfect topping on pancakes or waffles.

About Gladstone's Under the Sun continued

The Gladstones are very excited about the future. The Company is now in a permanent home located between two of the largest wild blueberry freezers in Maine. Given the fact that 99% of the wild blueberries are frozen after harvest, and their process uses the frozen fruit, an immediate supply is guaranteed. Their plant is able to process year round, creating new employment opportunities in their community. In addition, Gladstone's Under The Sun is very proud of the fact that the wild blueberries are taking a very short trip to be processed in such a way that not only produces a healthier product but a healthier environment.

As a socially responsible company, it is their goal to develop a Maine business that works with and promotes the local business community and the healthy aspect of its agricultural products. They continue to strive for more healthful and fresh snack foods that truly honor their special origins and a simpler, more natural way of life. They use only the best ingredients and pride themselves on the freshness of their products.

Blueberries and Antioxidants

Recent USDA studies show that Wild Blueberries are a tasty way to eat right and stay healthy. Scientists at the Jean Mayer USDA Human Nutrition Research Center on Aging at Tufts University ranked blueberries #1 in antioxidant activity compared with 40 other commercially available fruits and vegetables. That means a serving of blueberries may have more of the antioxidant power you need to fight aging, cancer, and heart disease.

Dried Wild Maine Blueberries

The Caviar of Maine wild dried blueberries are now even better than ever for you and your taste buds! After many years of hard work, they are now drying their berries only using fruit concentrates in the preservation process. With no sugar added, they feel the flavor and texture come as close as you can get to the fresh fruit. These dried wild blueberries have at least half the sugar content of most dried blueberries in the marketplace today.

Ingredients: Dried Wild Maine blueberries, grape juice

About Japan Delight and Japan Gold

Contemporary foodies like to know where their food comes from, how it was made, and who made it. Equipped with such information, one would presumably be better able to realize gratitude for one's sustenance and make wiser food choices. Associated buyers is proud to showcase the Japan Gold USA line of products. The Asian cool-food factor is alive and well at Japan Gold USA.

Japan Gold's parent company Muso (www.muso-intl.co.jp) has been an international purveyor of high quality, authentic Japanese foods since the 1960's. Founded by Shuzo Okada, a follower of George Ohsawa and practitioner of macrobiotics, Muso was a key player in the early growth of the natural foods industry in Japan. In the early 1970's, Mr. Okada sent his son Yuko to the U.S. to develop the market for Japanese foods. Today, Yuko Okada is Muso's Chairman and has been recognized for his pioneering work in developing the natural foods industry in the U.S. The mission of Japan Gold USA (www.japan-goldusa.com) is to expand on the idea of bringing authentic and affordable Japanese/Asian foods to natural food stores and supermarkets throughout North America.

New-to-market in the U.S., organic, instant Miso to Go! is made in Japan by a company that is not new; they have been making traditional miso for nearly 140 years. The Japanese Delight(tm) brand that Japan Gold USA distributes is made by Kurakon -a Japanese processor of kombu seaweed. Nearly 90 years ago, Kurakon was founded in Osaka, Japan. Today, it continues to be a leader of kombu seaweed in Japan and now in North America.

Behind every great product, there's an even greater story. The companies behind Japan Gold USA's products have a rich history and have stood the test of time.

About Kombu

Japanese people eat a number of different seaweeds. Of these, kombu is regarded as the most luxurious, and has been used in many kinds of Japanese cooking for over a thousand years. Kombu is used to make one of the stocks that give Japanese dishes their underlying flavor, and is also used as an ingredient in its own right. Rich in many important nutrients, kombu offers superb health benefits.

Since ancient times, kombu and other seaweeds have been an indispensable part of Japanese people's diet. Rich in minerals and dietary fiber, seaweeds have recently been attracting attention as a healthy food from the viewpoint of preventing heart disease and cancer. Japanese people eat large amounts of kombu and other seaweeds, and are famous for having the world's longest average life span. Their longevity is closely related to the fact that they eat more kombu and other seaweeds than any other people in the world. The benefits of eating seaweeds are now becoming more widely known globally. Kombu is the most beneficial of all seaweed, the key taste in healthy Japanese foods for over 1,000 years. Not only the taste, it is believed Kombu is one of the reasons for Japanese longevity for its nutritional value. Try Kombu, a gift from the beautiful sea in Hokkaido, for your better health & life, easy-cook, ready in just 10 minutes!

Treasures from the Sea

For thousands of years in cultures around the world, seaweed has been an integral part of culinary tradition. In 600 B.C., Chinese author Sze Teu described seaweed as "a delicacy fit for the most honored guests." Without seaweed in the dashi (soup stock), it has been said that Japanese food doesn't taste authentic. Today, food scientists can verify seaweed's ability to harmonize food flavors, in addition to providing valuable nutrients and multiple health benefits.

Japan Gold USA - the U.S. division of Japanese trading company Muso International, Ltd. - is proud to bring to America a complete line of seaweed food products to Associated Buyers.

Japanese Delight Kombu Dinners are deliciously flavored, seaweed-based stir-fries that are quick and easy, ready in just 10 minutes. Their main ingredient kombu - the "King of Seaweeds" - is highly regarded for its umami flavor; plus, it's low in calories, has zero fat, and is rich in vitamins and minerals.

The most popular fast food in Japan is noodles. Incorporating the essential umami flavor of kombu and nori seaweeds, Japan Gold Noodle Kits - available in three delicious flavors - make it easy to enjoy Japanese-style noodles at home in minutes. Precooked noodles with authentic seasonings are ready to heat and serve.

Treasures from the Sea continued

Authentic Japanese fare would not be complete without miso soup. Japan Gold USA's Miso to Go! comes in two mouth-watering flavors: Classic Blend with wakame seaweed and Shiso Delight. These instant soup cubes are freeze-dried, so they retain beneficial enzymes and have that savory "umami" taste.

Kombu Glass Noodle Teriyaki Flavor

Kombu and Glass noodles (mung bean noodles), which is wheat free and very low in calories, preferred among weight-conscious people.

Ingredients: Glass noodle, kombu, unrefined unbleached cane juice powder, soy sauce, carrot, shiitake mushroom, sea salt, yeast extract. Sauce: Water, unrefined unbleached cane juice powder, soy sauce, brewing seasoning (soy beans, wheat, bonito), sesame oil, bonito extract, scallop extract, sea salt, kombu extract, yeast extract, kombu seasoned powder, vinegar (wheat, rice, corn).

Kombu Garlic Soy Noodle

continued

Ingredients: Grain syrup, kombu, wakame stem, carrot, soy sauce, sea salt, yeast extract. Sauce: Grain syrup, soy sauce, rice cooking wine, vinegar (wheat, rice, corn), garlic, water, sea salt, yeast extract.

Item #20034

Kombu Ginger Soy Noodle

The Combination of fragrant soy sauce and ginger are some of the most popular seasonings in Japanese cooking. Ginger Soy Sauce is especially appealing when adding premium seaweeds like Kombu and Hijiki. This blend of flavors and textures truly captures the essence of traditional Japanese cuisine. Combining other foods like tofu, makes a nutritious and tantalizing dish in just 10 minutes.

Ingredients: Grain syrup, kombu, hijiki, carrot, soy sauce, sea salt, yeast extract. Sauce: Grain syrup, soy sauce, rice cooking wine, ginger, water, sake (rice wine), yeast extract, vinegar (wheat, rice, corn), potato starch, sea salt, onion extract.

Item #20037

(continued on page 66)

Kombu Spicy Miso Noodle

This flavor is made from a savory blend of Miso and red peppers. Spicy Miso goes especially well with Premium Kombu Seaweed and Glass Noodles (Bean thread noodles), which are made of bean starch. Add your favorite ingredients like potatoes to this culinary discovery and cook them together in a pan for 10 minutes.

Ingredients: Mung bean-starch vermicelli, grain syrup, kombu, carrot, soy sauce, sea salt, yeast extract. Sauce: Grain syrup, miso (soybeans, rice, sea salt), rice cooking wine, soy sauce, sea salt, vinegar (wheat, rice, corn), red pepper, water, yeast extract.

Kombu Teriyaki Noodle

continued

Teriyaki, a roasted soy sauce, is a sweet and appealing flavor used widely in Japanese gourmet cooking. Teriyaki goes especially well with our Premium Kombu seaweed sliced carefully into tiny noodle shapes. Combining other foods to this meal, such as Cabbage, makes a delicious dish rich in minerals and dietary fiber. What's better? This enticing dish can be served in about 10 minutes!

Ingredients: grain syrup, kombu, carrot, shiitake mushroom, soy sauce, sea salt, yeast extract. Sauce: Water, grain syrup, soy sauce, rice cooking wine, yeast extract, sea salt, ginger.

Item # 20036

HAPPY PHO*
Vietnamese Brown Rice Noodle Soup

About Star Anise Foods and Happy Pho

Pho (pronounced 'fuh') is a delicious Vietnamese soup packed with spices, fresh herbs and rice noodles. Sounds simple, yet the taste is anything but.

Star Anise Foods, makers of Happy Pho, debuts the world's first and only Vietnamese Pho noodle soups made from 100% brown rice with a touch of organic green tea.

Unlike most Pho, their new product line Happy Pho inspired by a traditional Vietnamese family recipe from the 1920s, is made from wholegrain brown rice that is high in fiber and protein, contains no MSG and is low in sodium - only 109 mg & 5% daily value. Happy Pho soups are gluten free and vegetarian. Simply add the brown rice noodles, the savory all natural spice packet and fresh organic ingredients to water to create an easy, healthy Vietnamese meal in your own kitchen in 10 minutes. There are 3 Happy Pho soup flavors - Garlic Goodness, Zesty Ginger, Shiitake Mushroom. And Just Noodles from Star Anise - just Brown Rice with Green Tea noodles...for those who like to make their own broth, stir fries or salads and just looking for a nutritious noodle. They pack their products in environmentally friendly packaging and are committed to advancing women-owned enterprises and promoting sustainable practices.

Star Anise Foods, a newly founded California-based, woman-owned all natural food company, focuses on bringing nutritious Vietnamese noodle soups to the US market. Their passion is two-fold: to produce wholesome and natural products with sensational taste and to develop sustainable and socially responsible opportunities. They love noodles and can't wait to share their healthy, gluten free, low sodium Pho soup with you!

The Happy Pho Story

"One late afternoon in February 2009, Thao was puttering around her sunny house in Sydney inner west area when she got a call from Karen. "I know what our business will be! Let's make healthy Pho using your grandparents' recipe," Karen said. It was the middle of the night for Karen in San Francisco.

That's how the Star Anise Foods adventure started. Two friends with an idea.

We met 4 years earlier while hiking in Hong Kong, and soon after had started talking about starting a business. Years of pursuing other interests on opposite sides of the planet had not killed that dream.

The idea was perfect for us! We love making and sharing food with others. We love Asian noodles, especially Pho noodles. We hadn't found that 'special', tasty Asian noodle that we craved. So, why not create one ourselves and share it with the world?

In June 2009, we landed in Saigon, Vietnam to further define our company's vision and to develop our product line. We rented 2 connecting rooms on a 3rd floor of a home in District 3 in the heart of Saigon. We lived, breathed and talked Vietnamese noodles and spices from the moment we woke up until the wee hours. We got a lot of opposition: "No you can't do it!, Absolutely not, are you nuts?, No it's not possible. Karen called it the "No, no, no" song. But we persisted, we kept asking questions, we kept hassling people, we kept finding new ways to fulfill our vision. And finally we got what we wanted - an all natural, flavorful Pho noodle soup that we absolutely love and that anyone can make."

The Happy Pho Story continued

"We're so proud of the delicious noodles we've created. We're both seriously addicted to the stuff! We love that everyone else who has tasted our noodles love them, from Karen's neighbor in San Francisco who had never even heard of Pho to Thao's family who have been passing down the secrets of making pho for three generations."

HAPPY PHO
Vietnamese Brown Rice Noodle Soup

Vietnamese Brown Rice Noodles with Organic Green Tea

Try these noodles in all sorts of meals: stir-frys, cold noodle salads, even random non-Asian influenced soups. This noodle box (just noodles) was created for you to experiment with.

These noodles are made with 100% brown rice rich in fiber and simple ingredients that are good for you. To pack in more flavor and health benefits, they blended Shan Tuyet (Snow Green Tea Tree) green tea into the mix. Found only on the sides of steep mountains up to 4,000-5,000 feet above sea level, these tea trees can live up to 500 years. Their leaves are naturally low in caffeine, rich in antioxidants and give that extraordinary flavor to these Vietnamese Brown Rice Noodles.

Try their Vietnamese Brown Rice Noodles with Organic Green Tea in soup, stir fry, salad, or any of your imaginative culinary creations.

Ingredients: Brown rice, water, organic green tea, salt

HAPPY PHO[®] Vietnamese Brown Rice Noodle Soup

Garlic Goodness Vietnamese Brown Rice Noodle Soup

Calling all Garlic Lovers out there. This is the Pho for you. Happy Pho - Garlic Goodness is vegetarian-friendly however the original Pho recipe used beef. Not all of us like beef, right? OR like beef all the time. So they've made it possible for you to add anything you fancy... chicken, mushroom, veggies of all sorts...and taste the bits of garlic you crave. This soup is hearty and perfect 'comfort food' after a long day.

Ingredients: Brown Rice Noodles: 100% brown rice, water, organic green tea, salt. Spice Packet: Organic star anise, organic Saigon cinnamon, garlic, ginger, spring onion, black cardamom

HAPPY PHO Vietnamese Brown Rice Noodle Soup

Zesty Ginger Vietnamese Brown Rice Noodle Soup continued

Karen, one of the originators of Happy Pho, loves using chicken for this recipe, but Thao, the other originator, thinks the ginger zest is perfect for beef. You might like adding a veggie after wandering your local farmers' market and picking up this week's freshest seasonal choice. Use their cooking instructions as a starting point, then go ahead, get creative and experiment. You can't go wrong with Happy Pho - Zesty Ginger.

Ingredients: Brown Rice Noodles: 100% brown rice, water, organic green tea, salt. Spice Packet: Organic star anise, organic Saigon cinnamon, ginger, black cardamom, spring onion

Item #20021

Shiitake Mushroom Vietnamese Brown Rice Noodle Soup

Being a Hanoian Pho snob, Thao was very unsure about using Shiitake mushroom, a non-traditional ingredient, in our recipe for Happy Pho. To her delight, this flavor turns out to be her personal favorite. It tastes exquisite with a wedge of lime squeezed in.

Ingredients: Brown Rice Noodles: 100% brown rice, water, organic green tea, salt. Spice Packet: Organic star anise, organic Saigon cinnamon, Shiitake mushroom, spring onion, black cardamom, ginger

About Patak's

"At Patak's Indian food has always been our passion. And it always will be. The only thing that matches our love of the food, is the strength of our desire to share this wonderful cuisine with you. That's why we thought you might like to delve into the full story of how Patak's came to be the success that it is. And maybe even check out our latest news. Or discover what we're doing around the world."

The Patak's Story

'My grandfather, L.G. Pathak, was born in 1925 into a family of poor farmers in the Indian state of Gujarat. When his father died the family moved to Kenya in search of a better life. They found one after opening a shop selling Indian sweets to fellow immigrants longing for a taste of home.

By 1956 Kenya was changing so L.G. and his family set sail for Britain - the 'Mother Country'. He arrived in a freezing November with just £5 in his pocket. The only job he could get was cleaning sewers.

At this point my grandmother stepped forward and started making Indian sweets and snacks in the tiny family kitchen. Soon word spread and the queues built up, and my 10 year old dad started making deliveries all over London.

(continued on page 78)

The Patak's Story continued

After a couple of years they opened a small shop behind Euston Station. It sold all kind of Indian groceries. It became a roaring success. Partly because they always sourced the best quality foodstuffs they could.

But after over ordering too many vegetables one time my grandfather decided to pickle the extras. It proved a stroke of genius. Next he preserved freshly ground spices in oil to create spice pastes that gave an authentic taste of India.

By now Kirit, my dad, was in charge, and my mum, Meena, was developing new products for the business. Soon they'd hit on the idea of sauces that made making a curry simple for people with little time to cook from scratch.

The business blossomed. And now it employs over 700 people worldwide. If my grandfather could see how our family's love of Indian food has helped Britain fall in love with it too, he would be very, very proud.'

Tikka Masala Curry Paste

The nation's fave - and we can see why. There is something about the succulent pieces of meat marinated in spices and yogurt and cooked in a creamy, lightly spiced, tomatoey sauce that is just divine. Our Tikka Masala paste blends authentic spices with lemon and coriander to create a simply tantalising version of Britain's most popular curry.

Ingredients: Water, Vegetable oil, Concentrated tomato puree 11g, Lemon juice 8g, Coriander 6g, Turmeric, Sugar, Dried onion, Ginger, Desiccated coconut, Salt, Maize starch, Acetic acid, Spices (contains mustard), Garlic, Lactic acid, Dried coriander leaf, Colour: paprika extract. This product contains mustard and may contain traces of peanut or tree nuts.

RAW WATER

A Message
from the President
of Summit Spring
Bryan Pullen

In response to world-wide concerns about chemicals in our everyday lives and their effect on our overall health and well-being, we have decided to market a completely untreated natural spring water taken straight from the source and gravity fed directly into the bottle without treatment. There are natural minerals classified as nutrients in addition to naturally occurring flora such as algae (microscopic chlorophyll containing plants) present in natural spring water that are not only essential to human function but are key ingredients to a healthy existence.

Because most source waters are of sub-standard quality and must be filtered and treated to make suitable for sale, these essential nutrients are unfortunately lost in the treatment process. Filtration, Distillation, UV Radiation, Ozonation, Chlorination, and Reverse Osmosis are all treatments which have a varying degree of detriment to the source water.

Invariably these essential minerals and algae are either stripped away completely or rendered inert or killed. All of these treatments effectively lower the nourishing capability of water. Tap water is a perfect example of water treated till "death", and the required chlorine residual keeps on killing long after it leaves the municipal facility.

RAW WATER

A Message
from the President
of Summit Spring
Bryan Pullen
continued

From the very first time I visited the Summit Spring source, I was amazed at not only how remarkable the source is, but how incredibly the water tasted right after it bubbled out of the ground; 42-46j, incredibly clean, soft and almost sweet, with absolutely no aftertaste. I always said that I had wished we could bottle it right then and there and the people, who have been lucky enough to visit the source, will tell you the same thing. Because of the normal institutional pressures and the status-quo of the bottling business, we took the advice of the established "players" in the business and set up our facility just like everyone else, following the so-called "experts" tips. The water tested so purely that we used only the minimum treatment specified through normal channels, albeit reluctantly.

Over these last five years as I studied Summits' history and researched facilities and water quality information, talked with "old timers" about natural springs, and generally wondered about all the magical things related to natural spring water, it became obvious to me that we were uniquely able to do things differently.

My most recent relationship with Daniel Vitalis and his groundbreaking work in the raw food community convinced me that the time was right to do something dramatic. Daniel and I have worked hand in hand to release this incredible product to the enlightened consumer.

RAW WATER

A Message
from the President
of Summit Spring
Bryan Pullen
continued

Our mutual desire to offer only the best water on earth coupled with recent news about concerns with certain plastic resins, in addition to the ongoing debate related to recycled plastic bottles, drove us to search out better options. Our love for glass coupled with our desire to bottle water in as natural a state as possible-led us to RAW Water.

As we watched every other bottled water company in the world fight over who could come up with the fanciest bottle (Swarovski Crystals-you've got to be kidding), we realized consumers were focusing on the wrong thing... Our "Bling" was inside the bottle. It was the product inside that mattered- not the package- Ours would go in a paper bag, a recycled content one just to prove we 'get it'. So we decided if we were going to offer glass, we would offer the most natural, untouched spring water available anywhere on earth. "Inside this bag is one of the purest and most extraordinary products you will ever have the chance to drink"-and we mean exactly that. Try it and you will understand.

Raw Living Spring Water

Gravity fed, Unfiltered and Untouched. Our Raw "Living" Spring Water is gathered from one of the oldest and most revered natural spring water sources in North America and comes to you just as it "bubbles from the spring(tm)" mere minutes after leaving the Earth. Shielded from harmful sunlight the entire way, this spring water comes straight from Mother Nature without ANY treatment or filtration and may even contain natural sand and gravel particles.

You Won't Find Any Water Purer than Summit Spring Water

Summit Spring Water-unlike any municipal tap water-is authentic, free-flowing natural spring water that comes from a single protected aquifer deep beneath the pristine forests of Maine. We collect only the natural overflow without the use of pumps, bore holes, or other artificial means that can offset the balance of nature.

The Mystery of the RAW Water Spring

One of the things that makes RAW Water's Summit Spring so unique is the fact that it's located near the summit of the highest point in Cumberland County, Maine, nearly 350' higher than the surrounding terrain. As far as anyone can tell, this means that the origin must be a very long distance away, where the terrain is higher. The most logical explanation is that the water source originates in the White Mountains of New Hampshire some forty miles away.

(continued on page 86)

The Mystery of the RAW Water Spring continued

The fact that Summit Spring Water travels so far, deep beneath some of the most pristine forest in North America may explain why our water is so uncommonly pure, just as it bubbles from the ground.

Knipschildt Chocolatier

About Fritz Knipschildt

"Owner of Knipschildt Chocolatier and Cafe Chocologie I clearly remember when I walked into my first job in the restaurant business. I had just turned 13 and my sister was sick, so I filled in for her as a dishwasher at a local restaurant. It was a small kitchen full of chefs, a lot of noise, and steam everywhere. I guess I fell in love with all the activity and excitement. The owner was French and had four restaurants - The Plaza Hotel, Marie Louise, and 2 other excellent places; all with very disciplined kitchens and a truly "old school" approach. In a short amount of time,

I quickly advanced and with the opening of a new restaurant in the north of Copenhagen, I was in charge of the bistro kitchen. This was before I had even attended Chef school. After that I worked for another French gentleman at a small 30 seat restaurant called Le Provence. I finally went to hotel and restaurant school for 4 1/2 years in Denmark.

After just a month of training at Hotel & Restaurant School, I was selected to represent my town in the Danish championship for young Chefs. It was a great experience to compete against the best young Chefs across Denmark.

After finishing school, I had the opportunity to work in the beautiful Mont Blanc area of France and also in southern Spain. I would have to say that my love of food started at a young age. I was very fortunate to have parents who took my sisters and I on many trips throughout Europe where we were exposed to all different types of food.

Knipschildt Chocolatier

About Fritz Knipschildt continued

My parents loved food and to travel. My father's side of the family are all artists and my mother's side of the family are all entrepreneurs. I guess a little bit of both rubbed off on me as I'm creative with food, but also interested in business.

By now, I was flourishing in the restaurant industry. At the same time, the chocolate industry was going through a radical transformation. We had access to the best raw chocolate and incredibly fresh ingredients. This was heaven for a young creative chef and I absorbed it all. With my background in the savory kitchen, I loved to experiment with sweet & savory flavors and I continued to do so with chocolate.

About that time, I moved to the USA as a private chef cooking for the rich & famous. After, I was sponsored by a French restaurant in New York. People were truly stunned when they tasted the infusions of chocolate and spices. They thought I was crazy, but as they tasted the chocolates, they soon realized that these combinations were true matches. It felt good to be a pioneer in modern chocolate making and bring new spicy sweet experiences to people."

The Organic Coffee Company is committed to helping preserve the environment. Each year our coffee buyer visits farms inspecting the harvest and building relationships with the farms who grow our coffee. It is all part of our dedication to pleasing coffee lover, coffee farmers and even the animals and birds that call these areas home.

Knipschildt Chocolatier

The Knipschildt Story continued

Fritz's endless passion and pursuit to create artistic yet high quality tasting chocolates has earned Knipschildt Chocolatier recognition by the press.

Recent features
include:

***Food Network, Winner
on Bobby Flay's
"Throwdown"***

***Food Network, Behind
the Bash with Giada De
Laurentiis***

***CNBC, NYC Chocolate
and Fashion Show
spotlight***

Knipschildt Chocolatier's hand made artisan chocolates are all about ...

The Look, you can tell these are exclusive. Chocolates are hand molded & rolled.

The artistic flair shines through the original yet classic designs.

The Taste, wow, the freshness ignites in your mouth.

Only the best ingredients from around the world are used (Valrhona chocolate, Spanish almonds, Jamaican rum, etc.).

Knipschildt Chocolatier

Chocopologie Bar

Fritz Knipschildt is thrilled to introduce the Chocopologie Bar, named after his Chocolate lounge & European style Cafe located in charming Sono, CT: Chocopologie Cafe. The bar is made with single bean chocolates, representing different regions from around the world. Fritz makes no compromises, he applies the highest standards of excellence to each and every step of the chocolate process.

Chocopologie Bar is good for you...

Benefits of Chocolate?

Many studies have found that chocolate contains flavonoids, a type of polyphenol antioxidant. Research conducted at the University of Scranton has demonstrated that the quality and quantity of antioxidants in chocolate is relatively high when compared to other high-antioxidant foods.

Cocoa powder ranks the highest of the chocolate products, followed by dark chocolate and milk chocolate. According to the Chocolate Manufacturers Association, dark chocolate contains about eight times the polyphenol antioxidants found in strawberries.

In November 2001, researchers found that people with a diet high in flavonoid-rich cocoa powder and dark chocolate have higher concentrations of HDL cholesterol (the good cholesterol) when compared with the control group.

(continued on page 94)

Knipschildt Chocolatier

Chocopologie Bar continued

In a more recent study published in Hypertension journal in August 2005, researchers from Italy found that dark chocolate may lower blood pressure in people with hypertension. The research also found that levels of LDL cholesterol in these individuals dropped by 10 percent.

Burnt Caramel & Hawaiian Sea Salt - Chocopologie Bar

Rich 71% Ecuadorian Single Bean Dark Chocolate filled with Burnt Caramel and Hawaiian Sea Salt

Ingredients: dark chocolate (cocoa mass, cocoa butter, sugar, vanilla, soy lecithin), sugar, water, heavy cream (milk), butter, Hawaiian sea salt, coloring.

Knipschildt Chocolatier

Artisan Sauces

These sauces are the perfect warm weather treat! Handmade with only the highest quality ingredients, each one has a rich, luscious taste. They're heavenly warmed up and poured over ice creams, pound cakes, and other desserts, and they make excellent fondue! You can even spruce up iced coffee with our sauces for an extra kick of flavor!

Butterscotch Sauce

Caramelized sugar, salt and fresh cream are the main ingredients to this incredible butterscotch sauce.

Ingredients: water, sugar, heavy cream (milk), butter.

Item # 40144

(continued on page 96)

Knipschildt Chocolatier

Butterscotch with Lime Sauce

A fresh twist on their butterscotch sauce, made with fresh key limes.

Ingredients: water, sugar, heavy cream (milk), butter, key lime juice.

Item #40145

Chocolate Dulce de Leche Sauce

Knipschildt artisan sauces are made by hand in small batches using the highest quality ingredients such as Valrhona Grand Cru chocolate. The result is a rich and authentic flavor, just heat and serve.

Ingredients: milk chocolate (cocoa mass, cocoa butter, sugar, whole milk powder, vanilla, soy lecithin), heavy cream (milk), water, sugar, butter.

SPARKLING FERMENTED TEA

Green Tea & Lemon

A refreshing hint of natural lemon taste in harmony with green tea and kombucha.

Ingredients: Kombucha, organic oolong tea, organic cane sugar, organic lemon flavor

Item #32351

The Kombucha Wonder Drink Story

Steve Lee was no stranger to tea. He co-founded and helped build two successful tea brands, Stash and Tazo tea. He had heard of the wonders of kombucha in the 1980s but it was not until his Russian business travels of the 1990s that interest and intrigue grew into something more.

Visiting the home of his Russian business partner, Steve asked his partner's aged mother the secret of her longevity and vitality. With a twinkle in her eye, she brought him the jar with the kombucha culture she always kept brewing, from an original culture given to her by her great aunt in Siberia in 1939.

SPARKLING FERMENTED TEA

The Kombucha Wonder Drink Story continued

The concept of some 3,000 weekly generations of kombucha being brewed through over 50 years of Russian history gave Lee chills and captured his imagination. He asked for the recipe and a portion of the culture, called "starter," that he could take to America.

He brought the precious starter home and began brewing kombucha in his own kitchen. Inspiration became a passion as he observed the effects of the drink on his own sense of well-being. Steve became convinced that more people should be able to experience the wellness benefits of kombucha, without all the trouble of home brewing.

Thus, acting on his desire to spread health and well-being and to bring people of different cultures together, he set out to make Kombucha Wonder Drink a reality.

Careful research and testing resulted in a workable process to preserve the authentic kombucha culture and bottle it for wide distribution. The discovery and development took the combined efforts of John Chapman, a business consultant and friend; Chip Greening, a senior high tech executive; Catherine Marel, an experienced office manager; Michael Dorr, trained in tea buying, bottling and product development; and Robert Deering, a microbiologist. In mid-2001 Kombucha Wonder Drink was born.

While part of the team created the business plan, others bought tea and natural flavors from all over the world. KWD joined forces with microbrewery experts and adopted new proprietary techniques to ensure safety and consistency when brewing kombucha.

SPARKLING FERMENTED TEA

The Kombucha Wonder Drink Story continued

After many months and a lot of blending, tasting and re-blending, the unique, uplifting and refreshing taste of organic Kombucha Wonder Drink was created.

Kombucha Wonder Drink is a Sparkling Himalayan Tonic with inspired natural flavors infused with tea, creating an entirely new beverage category. This unique, refreshing, somewhat mysterious - even magical beverage has its own compelling mythology.

For centuries, the wise ones descended each year from their aeries high in the Himalayas to harvest spring tea that grew in the valley below. The tea went back up, high in the mountains where it was blended according to an ancient formula, creating "kombucha" - a delicious, effervescent wonder drink that has for thousands of years conferred its wonderful benefits on all who drink it: good health, great longevity, inner serenity and incisive mental clarity.

Larry's

SOUTHWESTERN SAUCES

Larry's Southwestern Ranchero, Chipotle & Mole Sauces

Larry's Southwestern Sauces are original recipes inspired by the foods that Larry Sombke has eaten in Mexico and the American Southwest. You can use Larry's traditional home-style Ranchero Sauce, Chipotle Sauce and Mole Sauce to make huevos rancheros, chili, tacos, enchiladas, burritos, nachos, chicken mole, pulled pork, seafood, quesadillas, pork carnitas, and more. Made with healthy all-natural ingredients, these delicious sauces will bring the flavors of the Southwest to your table.

Larry's Sauces are unique to the American market. They are made with premium all-natural ingredients including; crushed tomatoes, fresh jalapeno, fresh cilantro and a blend of premium chili powder and other spices. There are no preservatives or added colorings in Larry's Sauces.

Larry's all-natural sauces are not salsas; instead they are cooking sauces.

Larry's Southwestern Sauces began in August 2009 and are already in more than 25 stores and farmer's markets in the greater Albany area, Saratoga Springs, Hudson Valley, the Berkshires, Syracuse and Rochester. Larry has sold more than 2,500 jars of sauce in less than 10 months.

Biography of Larry Sombke of Larry's Southwestern Sauces

Larry Sombke is a cookbook author, a food and garden writer and a radio and television producer. He enjoys preparing foods from his own garden and from farmer's markets.

Larry's
SOUTHWESTERN SAUCES

Biography of Larry Sombke of Larry's Southwestern Sauces continued

He developed his Southwestern cooking sauces when he was a chef at a natural foods restaurant in the Midwest. Influenced by the regional dishes of Texas, Southern California, Oaxaca, and the Yucatan in Mexico, his cooking sauces help home cooks easily prepare and enjoy the flavorful restaurant dishes of the Southwest and Mexico.

Larry is the author of six cookbooks including; Beautiful Easy Herbs (Rodale Press), Fearless Entertaining, (E.P. Dutton), Glorious Roots: Recipes for Healthy Tasty Vegetables (MasterMedia) and Omelets; Eggs at Their Best (St. Martins).

Larry's food articles have appeared in The New York Times, Esquire, Food & Wine, New York Magazine, USA TODAY, New York Daily News, New York Post and others. He was the 'Cooking from the Garden' columnist for the Albany Times Union and was a regular guest chef on WNYT Ch. 13 in Albany. He has appeared on NBC's Today Show, the Discovery Channel and on radio and television programs across the USA.

Larry was an associate producer on "What's Cooking with Burt Wolf" and "Burt Wolf's Travels" on PBS and CNN. He owned and operated The Private Chef, a personalized catering business in New York and the Hamptons and he was the chef to an American family in Mallorca, Spain.

He is also the author of five gardening books and three books on sustainable green living. He was the garden columnist for the New York Daily News and the Albany Times Union. For ten years he was the award-winning "Natural Gardener" on Northeast Public Radio. He lives with his family in Delmar, NY

FoodShouldTasteGood Brand and History

The Brand With a brand name that says it all, FoodShouldTasteGood chips are made from the highest quality, all-natural ingredients baked into the chips-not from artificial flavorings sprinkled on top. All chip varieties are gluten free, cholesterol free, have no trans fats and do not use genetically modified ingredients (GMOs). They are also certified Kosher, lower in sodium and are a good source of dietary fiber. The chips combine the crunchiness of a chip, the crispiness of a cracker and the dipability of a tortilla chip.

The History CEO and founder Pete Lescoe created FoodShouldTasteGood in 2006 with the goal of making a unique new snack with great taste, healthy ingredients, and sophisticated flavor-the qualities he is most passionate about in food. Based in Needham Heights, Massachusetts, FoodShouldTasteGood is a quickly growing company that maintains the values of its entrepreneurial roots.

MINOA™

Extra Virgin Olive Oil

The ancient Minoan civilization that flourished on the island of Crete some 3,000 years ago was the earliest Mediterranean culture to fully appreciate olive oil, and to rely on it for its commercial value as well as its nutritional properties.

Today, our family on the island of Crete continues the age-old tradition of making and distributing the world's finest olive oils.

MINOA Mediterranean is our newest offering bringing together into one delightful blend, the best oils of the Mediterranean area. MINOA is a combination of extra virgin olive oils from Spain, Italy and Greece (between them the three countries produce approximately 90% of the world's olive oil). It is smooth and fruity, with a mild, spicy finish making it ideal for cooking, baking, salads, marinades and sauces. Acidity is less than 0.5% and it is Kosher.

We wish you good health and enjoyment.
The Daskalakis Family, Crete

Cheddar Tortilla Chips

continued

Cheddar cheese, quinoa, soy, flax, sunflower and sesame seeds make this chip a healthy yet delicious alternative for cheese cravings.

A top requested taste profile since the brand's inception, Cheddar offers the cheese loving consumer a healthy yet delicious alternative to snacking with 3 grams of fiber and 3 grams of protein in each serving. Made from real cheddar cheese, oat fiber, flax, sunflower seeds, soy, brown rice and quinoa, these chips lack the trans and saturated fats commonly found in cheese flavored chips yet are packed with the true flavor found in Food Should Taste Good products. Created without artificial ingredients - an aspect that sets Food Should Taste Good apart from other cheddar cheese flavored tortilla chips - its rich flavor is enjoyable on its own.

Ingredients: Stone ground corn, high oleic sunflower oil and/or safflower oil, cheddar cheese (pasteurized milk, cheese cultures, salt, enzymes), oat fiber, flax seeds, sunflower seeds, evaporated cane juice, buttermilk, whey, sea salt, sesame seeds, brown rice flour, soy flour, quinoa, annatto

Blue Corn Tortilla Chips

Nutty flaxseed, sunflower seeds and organic blue corn flavors create a robust yet versatile chip made from organic blue corn. A colorful way to entertain, pair it with a fresh dip.

Blue corn is higher in antioxidants than white or yellow corn due to anthocyanin - the same compound found in berries and red wine believed to fight colon cancer. Food Should Taste Good's Blue Corn chips are made with organic blue corn. Combined with the health benefits from quinoa, brown rice, soy, flax and sunflower seeds, Blue Corn makes it possible for consumers to feel guilt free about snacking. Whether enjoying the variety on its own or pairing it with a fresh dip, Blue Corn is a colorful way to entertain while eating healthy.

Ingredients: Organic blue corn, high oleic sunflower oil and/or safflower oil, oat fiber, brown rice flour, flax seeds, evaporated cane juice, sesame seeds, sunflower seeds, quinoa, soy flour, sea salt

Root Cellar Preserves

Root Cellar Preserves Story

"Fasten your taste buds New England, Root Cellar Preserves have come out with three new pickles; Zesty and Sweet Pickle Chips, Spicy Dill Pickle Chunks and our Hamburger Dill Chips.

Canning and pickling have been an American tradition since homesteaders arrived in the new world. Today, preserving fruits and vegetables has become a lost art. Root Cellar Preserves now offers a variety of delicious pickled products once commonplace, but now hard to find.

Root Cellar Preserves is committed to the preservation of early American homesteads. Many of these buildings, which represent the historical foundation of our country are giving way to disrepair, neglect and encroaching development. Root Cellar Preserves has established a fund from its proceeds to support local community efforts to preserve these homesteads for future generations.

We hope you will enjoy the wholesome goodness of our favorite recipes, while supporting an important cause."

The Little Duck Organics Story

"Shortly after our first daughter Taylee was born, my wife and I started buying puffs and freeze dried fruit for her to snack on. We used to always talk about the lack of selection in the baby aisle. Every store we went to stocked the same products made by multi-national corporate brands. After looking at the nutritional information, we found that many products contained added sugar, preservatives and artificial flavors. Having always preferred organic or locally grown products, we wished that there was an alternative brand available for us to buy.

In July of 2008, our second daughter Ella was born. Soon after, we found ourselves back in the baby aisle looking at the same products that we did when we were buying snacks for our daughter Taylee. During the winter of 2008, I started brainstorming ideas and researching what it would take to bring a food product to market. My ultimate goal was to create all natural baby snacks that parents could feel good about giving to their children.

Fast-forward to February 2009... After making the decision to put another business idea on hold, I shifted my focus to developing a line of all natural baby foods. Little Duck Organics was born! The brand would specialize in organic, great tasting snacks for infants and toddlers. The months that followed were full of packaging design, negotiations with manufacturers, and product testing. In July of 2009 we manufactured our first pre-production run of snacks and immediately shipped samples out to friends, family and a select group of bloggers. The feedback we received was amazing. We immediately made plans to begin our first production run in the Fall of 2009.

"Ain't No
Bird Food
Granola!"

Our delicious,
toasted oat clusters
are so unique, we
refuse to call them
the old "G" word
(Hint: it ends in "ranola")
Somewhere between a
cookie and a cereal
bar, these crunchy,
unpredictably-shaped
pieces are fiberful,
fun and full of flavor!

- 100% Natural
- High Fiber
- Whole Grain
- Low Sodium
- Cholesterol Free
- No Refined Sugars
- Non-GMO
- Dairy Free

Available in five flavors:

- Acai Berry
- Maple Pecan
- Almond Walnut
- Almonds 'n Spice
- Double Chocolate

Naturally Delicious Real Mayonnaise

Naturally Delicious Real Mayonnaise is All Natural so it doesn't contain artificial colors and preservatives. Unlike other mayonnaise brands, it doesn't contain the chemical preservative EDTA. It is made with Canola Oil and is rich in Omega-3 ALA. It contains NO High Fructose Corn Syrup. It is delicious on sandwiches or in your favorite summertime recipe.

Naturally Delicious Real Mayonnaise is made by Cains Foods out of Ayer, Massachusetts. Cains has been making mayonnaise, salad dressings as well as other condiment items since 1914.

Ingredients: Canola Oil, Whole Eggs and Egg Yokes, Distilled Vinegar, Water, Salt, Sugar, Lemon Juice (From Concentrate), Oleoresin Paprika and natural flavors.

About Mrs Crimble's

The company was started over 20 years ago selling Biscuits/ Cookies under the Mrs Crimble's brand name. Long before the days of celebrity chef product ranges the Mrs Crimble's range of 'Home Recipe Biscuits' the brand was endorsed by Fanny Craddock who was shown on the packaging to claim 'they're the very best'. However, today Mrs Crimble's are well known for their range of wheat free, gluten free, and dairy free products. They've lost none of their attention to quality over the years and feel sure that today they would still find favour with Fanny's tastebuds.

Originally they started life selling their products in London from the back of a small fleet of vans. The products were displayed on racks and re-stocked every four weeks by a visiting salesman with a van full of goodies. Today they can be found in all good independent farm shops, health stores and delicatessens and more recently on the 'Free From' or speciality sections of the more well known supermarkets.

Mrs Crimbles supports Coeliac UK, the leading charity working for people with coeliac disease and dermatitis herpetiformis (DH).

MimicCreme Story

"Rose Anne Jarrett, our company founder, couldn't believe it. She was pretty knowledgeable about food, having worked in the restaurant business and then later catering to professional musicians, but when doctor's orders called for eliminating dairy products from the family menus, she was unable to find a single substitute for cream that didn't ruin her favorite recipes, including those for ice cream and semifreddo. She tried many different non-dairy substitutes (none of them approximating that consistency of cream.) Soy products. Rice products. All kinds of different grain products. All just inferior.

So, Rose Anne figured there was nothing else to do but create that perfect cream substitute herself.

And that's just what she did. By trying a series of combinations and permutations with a variety of ingredients she finally arrived at the right blend of flavor, taste and texture.

And thus, MimicCreme, the product, and our company, was born.

Since then, we've had the chance to share MimicCreme with the most demanding of chefs. They've tried it in their own favorite recipes. The conclusion has been unanimous – MimicCreme really does mimic the taste of real cream."

MimicCreme HealthyTop Whipping Cream

A non-dairy, shelf stable whipping cream that is kosher parve and is not full of chemicals. Still based on almonds and cashews, we added almond and coconut oil so that air can be trapped and whipping can occur. Please note that none of our other products can whip (they can froth but not whip).

Ingredients: Purified water, organic coconut oil, sugar (vegan), Maltodextrin (Corn-based), nut blend (almond & cashews), sweet almond oil, sunflower lecithin, guar gum, natural flavors, less than 2% of the following: polyglycerol esters of fatty acids (vegan), sorbitan monostearate. Allergy statement: Contains tree nuts.

Honey'd Corn Flakes - Eco Pac

Crisp, golden, gluten-free flakes made of pure cornmeal, lightly sweetened with concentrated grape juice, but sweetened with a mix of organic evaporated cane juice and honey.

Ingredients: organic cornmeal, organic evaporated cane juice, organic honey, sea salt.

Item #7242

Mesa Sunrise Flakes - Eco Pac

This is a unique gluten-free and wheat-free medley of Indian corn, flax, and amaranth blended into crunch, golden cereal flakes and naturally sweetened.

Ingredients: organic corn meal, organic yellow corn flour, organic evaporated cane juice, organic flax, organic buckwheat flour, organic quinoa, organic amaranth, sea salt, tocopherols (natural vitamin E).

Item #7241

Manna Organics From Nature's Path

What is Manna bread? It is a cake-like, sprouted bread, yeast free bread, free of salt, no oils, no sweeteners, no leavening agents. Manna is moist and delicious, high in protein and fiber.

Manna Bread is remarkably simple and wholesome, made entirely from sprouted organic grains, seeds, fruits & nuts. It contains no salt, leavening, yeast, oil, or sweeteners.

By fully germinating our grains, we convert the starches into easily digested natural complex sugars, similar to those found in fresh fruits, hence the sweetness.

The sprouts are ground and hand-shaped into loaves, baked at a low temperature, then packed and frozen to preserve shelf life, without any chemical additives.

Manna Bread is moist, delicious, cake-like...and simply heavenly!

Manna Bread "...moisten your wheat, that the angel of water may enter it...and the blessing...will soon make the germ of life to sprout... then crush your grain and make thin wafers as did your forefathers..." - Essene Gospel of Peace.

Manna Organics, like Nature's Path, is an independent family enterprise dedicated to bettering the world we all share.

Envirokidz Initiatives

1% of EnviroKidz sales are donated to species and habitat conservation or education programs for kids. Every time you buy one of their boxes with a cute endangered species on it, a portion of the price you pay goes to help. To date, 1MM dollars has helped their partnering organizations with their educational and protection efforts!

Honest Mate Tea

Honest Mate is Honest Tea's line of invigorating ready-to-drink organic yerba mate (MAH-tay) drinks. High in antioxidants and low in sugar and calories, Honest Mate is brewed with organic unsmoked mate grown on a family farm in Argentina using environmentally-sound farming methods

Honest Mate proudly uses organic yerba mate which comes from a family farm in the state of Misiones in northeastern Argentina. This region is famous for producing the highest quality yerba mate. Here, the sun, rain, and soil are perfectly suited to this vibrant plant. While most yerba mate is dried with the use of smoke, our farmer's smoke-free drying process creates a clean, smooth yerba mate.

The primary active ingredient in mate is mateine. Mateine's chemical composition includes caffeine but some people are able to tolerate a mate drink better than coffee because it contains other polyphenols. Mate has been enjoyed for generations for its stimulant properties. Although it contains caffeine, many consumers enjoy the benefits of wakefulness and focus without the spikes and slumps of other caffeinated drinks.

Honest Beverage suppliers are committed to ecological farming. Their traditional methods leave dense corridors of native forest intact. Many of these wildlife-rich lands have never seen a machete, and it is hoped that they never will. Partners of Honest Beverage are helping the local farmers who live nearby become certified organic. Not only will the spread of organic agriculture protect their farm's watershed, it will preserve these farmers' traditions and help them achieve environmentally-sound livelihoods.

G.G. Bean

G.G. Bean manufacturers odorless orodor neutralizers and specialized kleeners for home, recreation, pets, and personal use. All G.G. Bean, Inc. odor neutralizers are ready to use. The water-based formulas are enzyme-free, odorless, non-toxic, and cruelty-free tested. Being enzyme-free means that these products have an unlimited shelf-life (enzymes usually have an effective life of only six to ten months), and that they can be exposed to extremes of heat and cold and still work without aggravating allergies.

These products are safe to use near children, adults, pets and clothing. If you neutralize the odor first, you can clean afterwards without spreading the odor. All G.G. Bean, Inc. specialized kleeners are not for everyday quick cleaning of household appliances but for real cleaning.

G.G. Bean Skunk Kleen

Skunk Kleen instantly neutralizes skunk odor in the air, on animals, leashes and collars, carpets, clothing, or yourself. Be prepared for the inevitable. It will also work in cars and trucks and under houses.

About All Terrain

All Terrain's primary mission is to sell quality "Natural Remedies for Outdoor Enthusiasts." Environmentally conscious, All Terrain's products have all natural ingredients and their packaging is made from recycled material, recyclable and/or biodegradable. All Terrain strives in the long-term to operate in a "net zero consumption" manner (we have a long way to go on that front.)

First Aid Supplies

If you are pursuing outdoor activities, you better have first aid supplies. Whether you are climbing the Half Dome at Yosemite or just working in the garden, you are going to get little injuries.

Unlike generic products, All Terrain offers first aid supplies that are created with the environment and natural solutions in mind. Wherever possible, we use natural chemical-free solutions. When you are working or playing outdoors, do you deserve anything less?

Antiseptz Gel

Antiseptz Gel

If you love the outdoors, you are going to get nicks and cuts every so often. With All Terrain's antiseptic gel, you can keep them from getting infected.

All natural, antiseptic formula for minor cuts, scrapes and burns. Cool, soothing gel to disinfect.

Item #73137

(continued on page 146)

Antiseptz Spray

Antiseptic Spray

No matter how hard we try, we get clumsy every once in a while. When you get small cuts, scrapes or burns, our all natural antiseptic sprays provide immediate relief.

All natural, antiseptic formula for minor cuts, scrapes and burns. "No touch" spray for broader coverage.

Item #73138

Poison Ivy/Oak Cream

One of the risks of living an outdoor lifestyle is rubbing up against something that rubs back with a vengeance. Don't worry. All Terrain has the perfect poison ivy treatment for you.

Poison Ivy/Oak Cream dries the oozing and weeping of poison ivy, oak, and sumac.

Poison Ivy/Oak Bar

Poison Ivy and Oak Treatment

One of the risks of living an outdoor lifestyle is rubbing up against something that rubs back with a vengeance. Don't worry. All Terrain has the perfect poison ivy treatment for you.

The Poison Ivy/Oak Bar is specifically formulated to help relieve itchiness and support healing from poison ivy, poison oak and/or poison sumac.

Item #73141

Bite Soother Spray

Insect Bite Relief

When you play outdoors, insect bites are inevitable. The quickest way to get insect bite relief is with our Bite Soother Spray.

Quickly soothes irritated skin affected by insect bites. Convenient pump spray.

Item #73139

Latex-Free Bandages

If you are pursuing outdoor activities, you better have first aid supplies. Whether you are climbing the Half Dome at Yosemite or just working in the garden, you are going to get little injuries.

Unlike generic products, All Terrain offers first aid supplies that are created with the environment and natural solutions in mind. Wherever possible, we use natural chemical-free solutions. When you are working or playing outdoors, do you deserve anything less?

Mission Statement

We recognize the fundamental interconnectedness of individual and group actions. Within our network of vendors and customers, we seek to build sustainable relationships, both ecological and economic, by providing healthy products and personal service to meet specific needs. Within our company, we strive to create an environment in which our employees identify with the inherent value of these goals.

Crocodile! Insect Repellent

Crocodile! is an all natural insect repellent that drives insects crazy. It is effective on mosquitoes, black flies, sand fleas and other gnats and pests. A single application keeps them away for hours, yet it is safe for the skin and the environment.

An Old World Recipe

Crocodile! was born in the summer of 1994. Jude (our herbalist) came upon an Old World Recipe for an herbal insect repellent. Intrigued, she went into her organic herb garden and gathered the required herbs to try the recipe with her herb class. A true herbalist, Jude refined the recipe to come up with a nontoxic oil, suitable for use on humans and animals that smelled good, was earth friendly and could be made with organic herbs.

Tested in the Florida Everglades

Fred (our pharmacologist) suggested that we really put the product to the test. We decided to test it in the bug infested Florida Everglades. We asked the locals where we'd find the most mosquito infested area. "That would be snakebite trail," we were told. "But, don't even try it without being fully protected with mosquito netting, or you'll be eaten alive." We rubbed some of our Crocodile! discouragent on, and hit the trail wearing shorts and t-shirts. It worked! No bites! It was there in the Everglades that the name Crocodile! came to us. Crocodiles are known for their tough skin. They are naturally impervious to attack from bugs and insects.

Black Flies Were No Match

Our next step was to bring Crocodile! home to New Hampshire and try it out against the New England mosquito and black fly population.

Crocodile! Insect Repellent continued

Same results, it worked great! Suddenly Crocodile! was a family venture. We sent samples far and wide, always with the same results. Uncle Fred went into his lab and developed a grease free cream to contain the Crocodile! oil. That's how Crocodile! herbal insect repellent came into being!

There's nothing else like it!

Crocodile! is unique because it is an all-natural, organically grown, herbal-based insect repellent. It does not contain any DEET, a controversial bug repellent used by most major brands. It is non-aerosol, non-greasy, and has a pleasant odor. Crocodile! is even backed by a 100% satisfaction guarantee.

The Dancing Roots Family

Dancing Roots is a small, family owned business that provides high quality herbal-based products for people and animals. Our company includes an herbalist and a pharmacologist, with the knowledge and expertise to insure the integrity of our products.

Crocodile Insect Repellent Cream

Crocodile! All-Natural Herbal Insect Repellent is now available in a 1/2 oz. Cream for your convenience!

Ingredients: An Oleaginuous extract of Rosemary, Peppermint, Thyme, Beeswax, Castor Oil and Canola Oil.

Honest Mate Tea

continued

They are also replanting pasture lands with native species to create habitats where wild-life and yerba mate can coexist. One of the many beautiful things about yerba mate - in addition to its great taste and amazing health benefits - is that it can be grown organically in the shade of a thriving forest canopy. Food crops and fruit trees can be interplanted with the yerba mate trees, and our partners are planting thousands of native trees among their mate orchards.

Honest Agave Mate

Ingredients: Purified water, organic agave syrup, organic yerba mate and citric acid.
