October: Fair Trade Month

Join the annual campaign to drive sales of Fair Trade Certified products and strengthen farming communities around the world.

This October marks a significant opportunity for everyone to come together in support of socially and environmentally sustainable products. With Fair Trade Certified™ organic imports on the rise, and consumer awareness of Fair Trade quadrupling since 2005, Fair Trade Month is a unique opportunity to take advantage of this momentum and simultaneously strengthen the U.S. Fair Trade market and empower small farming communities around the world.

To help you gear up for Fair Trade Month 2011, Fair Trade USA is offering a number of tools and resources to help our industry partners maximize their market presence.

Every Purchase Matters Style Guide: This style guide will help you integrate the Every Purchase Matters campaign into your planned activities for October and throughout the year. Find it here: http://www.fairtradeusa.org/resourcelibrary/ materials\

Free Point of Sale Materials: Get involved by ordering our free point of sale materials for displays, promotions and activities. Our point of sale materials are provided free of charge, though you will need to create a unique login for this service. Find them here: ttp://www.fairtradeusa.org/ resource-library/materials

Impact Reports: Fair Trade USA's Product Impact Reports focus on the benefits of Fair Trade in seven of our major product categories: tea, cocoa, sugar, wine, coffee, flowers and bananas. These category-specific reports highlight the industry background and development issues unique to each supply chain, and are a great resource to help you tell the Fair Trade story this Fair Trade Month. Tool Box - Tips for a Successful Buying Club

driven to grow–the right way

Welcome to the Buying Club Tool Box! We want to hear from you! Do you have a question or suggestion for the Tool Box? Please email us at bcservices@unfi.com with Tool Box in the subject line. We may feature your idea in an upcoming issue!

BUYING CLUB TOOL BOX

unfi®
DRIVEN BY NATURE

Tips for a Successful Buying Club

- Always focus always on making the buying club fast, easy, and convenient. This is the best way to attract and keep satisfied members.
- Make sure each member has access to pricelists either online or in paper format. Take advantage of our monthly Specials.
- Set up good systems to communicate with members. Create a website, an email distribution list, or print a newsletter with order deadlines, splits list and news.
- Make it a goal to share the work fairly. Create jobs for members with special scheduling needs or unique abilities
- Plan to grow. More members mean less work, a larger volume discount, and greater stability for the coop.
- Offer the largest selection of products possible. Develop a system for splitting cases among members.
- Use a surplus table. Order the balance of that unfilled case and sell the extra at the surplus table during distribution. This gives other members a chance to try new products.
- Take the time to orient new members. This is the best way to insure that new members enjoy the coop and meet their responsibilities.
- Have fun! Enjoy yourselves! The camaraderie of working together is a big part of a buying club. Set aside time just to socialize.
- Support and recognize your leaders and activists. Appreciate and encourage the skilled people you have, and encourage new experts to develop.

Next Edition

In November's Tool Box we will review case sharing systems.

Policies & Business Information

Requesting a Credit after Delivery: All credit and return requests must be made within FIVE business days of delivery. A Credit Memo will be issued upon approval by your Claims Representative and will be applied or attached to your next invoice. Once the driver has left your site, frozen and cooler items cannot be returned and will not receive credit.

How to Request a Credit: There are 4 options for requesting credits. For accurate and timely processing of your credits, please follow these guidelines:

1. Use the Credit Request Form on our website, OR
2. Fax your request to 877-842-6352, using the correct Claims Form.
   (To get the form, call 800-451-2525, select option 3, then option 5
   and leave your fax number; we will fax you the form.), OR
3. Email your request to: erclaims@unfi.com. When emailing, be sure to include your customer name and number, the invoice number, the product number and description, the quantity and the reason for the credit. When reporting a mis-pick you must include a detailed description of the item you received in place of the item you were billed for (include brand, size and product description), OR
4. You may also call and speak to a claims representative, 8 am to 4:30 pm (Eastern Time) Mon-Fri. Call 800-451-2525, select option 3, then option 5. When calling, please leave ONLY your name, daytime phone number where you can be reached, your customer name and customer number. A Claims Representative will return your call. Do not leave details of your request on voice mail.

Acceptable grocery credit categories include: Undelivered Sales: Items invoiced but not delivered. Mis-picked Items: Received another product in place of product ordered (right label, wrong product); Please report the UPC number of the item received. Quality: Item is unusable due to manufacturer's defect, such as no safety seal, moldy; Please report the expiration date or lot number of the item received. Damaged Product: Product arrived damaged. Short Dated Products: Items past their sell-by date; Please report the expiration date and purchase date to the Claims Department. For Product Dating guidelines, please see our website. Freezer and Cooler Items cannot be returned. To insure product quality and integrity for all our customers, we do not accept returns of frozen or refrigerated product.

Return Guidelines: All claims must have prior approval by the Claims Department before returning. Your UNFI Claims Representative may determine because of the condition of the product that the contents may be discarded; however you may be requested to return the UPC code or lids. All products must be returned in saleable condition, in original cases. Full case items must be returned with all the pieces. Product that is not returned in saleable condition will be debited back to your account.

Restocking Fee: We will charge a 10% restocking fee on goods which are returned due to customer ordering error.

ALBERT'S ORGANICS: Produce from Albert's Organics is available to customers ordering from our Chesterfield New Hampshire warehouse. Please note that Albert's policies and procedures differ from those printed here. Contact your Albert's sales rep for information.

How to Get a Buying Club Pricelist

Buying Club pricelists need to be ordered on your regular monthly order the month prior. For example, when you place your order in June and you are wanting July catalogs, you will need to add that item number to your regular order that you place in June to be received on the truck delivery. The cost for each monthly specials catalog is $0.75. They are sold individually. Listed below are all of the item numbers that correspond for each month's catalogs.

#0282079 JANUARY	#0282095 FEBRUARY
#0282111 MARCH	#0282129 APRIL
#0281956 MAY	#0281972 JUNE
#0281980 JULY	#0281998 AUGUST
#0282012 SEPTEMBER	#0282038 OCTOBER
#0282053 NOVEMBER	#0282061 DECEMBER

Pricelists are available to view and download from www.unfi.com with Log In information.

The cost of the Annual Catalog (product #0916759) is $1.50.

Policies & Business Information

Over twenty five years ago a group of visionary companies shared the goal of bringing healthier and more natural food to people across the country. Those companies—Mountain People's Warehouse, Cornucopia Natural Foods, Stow Mills, Rainbow Natural Foods, Blooming Prairie Cooperative and Northeast Cooperatives—shared a commitment to nourishing people, communities and the planet. Today, as United Natural Foods, that commitment is stronger and deeper than ever and is manifested in a proactive concern for the environment, a reverence for the land and sustainable agriculture and the importance placed on core values and social responsibility in the way we do business.

United Natural Foods, Eastern Region, operates distribution centers in: Atlanta, GA; Chesterfield, NH; Dayville, CT; Greenwood, IN; York, PA and Iowa City, IA. We supply a broad selection of natural and organic products to stores, institutions and consumer buying clubs throughout the region.

BUYING CLUB SERVICES: To assist our Buying Club customers, UNFI provides Web Ordering at no charge. Web ordering simplifies operations with features such as:

*Consolidates member orders into one order for the warehouse

*Member IDs print on warehouse pick labels for quicker distribution

*Simplifies case sharing among members

*Electronic invoice processing generates individual member's invoices

Visit our site at www.unitedbuyinclubs.com for more information on Web Ordering, buying club resources, suggestions on how to best organize and operate your club, news, and other information.

For effective and efficient communication between United Natural Foods and your buying club all communication should be funneled through your buying club coordinator for specific issues, such as credits, ordering, or delivery arrangements.

TERMS: Standard terms for all orders are COD.

Checks returned unpaid (bounced) are subject to a $25 penalty and the loss of volume discount. When paying for your delivery, make sure your account number and group name are on the check.

DELIVERY PROCEDURES: Our drivers work hard to keep their deliveries on time and provide good service. Please help them stay on schedule by following these procedures:

- Select an easily accessed delivery site where a tractor trailer can be easily maneuvered. Avoid cul-de-sacs, dirt or gravel roads, and low-hanging wire or viaducts. Final approval of delivery sites rests with the Transportation Department. The safety of our customers, our drivers and everyone at the delivery site is of primary concern.
- Each customer will be assigned a regular delivery day based on our truck schedules in the area. UNFI will make all efforts to keep your delivery schedule as consistent as possible, but it is subject to change.
- Delivery time of day may vary from delivery to delivery.
- Customers are responsible for unloading the truck using our unloading procedure. Drivers will either bring the product to the back of the truck for your group to unload or use a lift gate to lower it to ground level. A minimum of three adults from your buying club must be present to unload your order.
- Credits for frozen and refrigerated product can only be issued by the driver at the time of delivery. Customers are responsible for carefully checking all frozen and refrigerated product for errors or damage before the driver completes the paperwork. The driver can issue credits for other missing, mis-picked or damaged goods at the time of delivery.
- The grocery or dry items are a piece count. The driver will give you the number of boxes that are to be on the truck and your group counts the number of boxes.
- To help the driver get to his/her next delivery on time, your group will need to go through repacks after the driver has gone.
- Any repack or grocery errors will need to be handled through the Claims process (Claims & Adjustments below).
- Customers are responsible for signing each invoice to acknowledge that all items billed have been received in good condition or credited.

PICKUP ORDERS: Appointments to pick up your order may be made when placing your order. Pick up hours are:

- Atlanta - 8am-4pm M-F
- Chesterfield - 7am-2pm M-F
- Dayville - 8am-2pm M-F
- Iowa - M, W, TH & F 8am - 2pm; TU 8am-5pm
- Greenwood - 8am-4pm M-F
- Moundsview - W, F by Appointment
- York - 9am-5pm M-F
- Sarasota - 8am-5pm M-F

A $350 minimum order is required for orders picked up at the warehouse. Pickup times must be scheduled in advance. We are unable to make any changes to your order the day you pick it up. Payment is by check or money order only—no cash. The warehouse is extremely busy, so please follow these procedures:

The customer is responsible for checking the order against the invoice.

- Please send two people to transfer product to your vehicle.
- Groups may not breakdown the order at the warehouse.
- For safety reasons, no one under 18 is allowed in the warehouse.

MINIMUM ORDERS: Orders picked up at our warehouses: $350. Delivered orders: $750, unless a higher minimum is assigned by Transportation due to your location and distance from the warehouse or our routes.

MINIMUM ORDER FREQUENCY: Like other wholesalers, United Natural Foods sets minimum order size and order frequency required for service on our delivery routes. Order cycles are assigned by the Transportation Department and are once every four weeks.

SALES TAX: Sales tax will be applied to all taxable products purchased by buying clubs unless we have a valid resale tax certificate on file. Tax is based on your delivery location.

VOLUME DISCOUNTS: Volume discounts apply to most regularly priced items. Volume discounts are not applied to items already on sale, deposits, fees and selected products. For a list of products not subject to volume discount, contact your buying club coordinator. If your volume discount is more than a monthly special discount, the volume discount will apply. Your volume discount level is reviewed and assigned twice per year, based on your purchase history, although we are happy to make adjustments at any time for groups whose orders are increasing. Coordinators with questions about volume discounts can contact Buying Club Services (see Who to Contact in the front of this pricelist).

ORDERING INFORMATION: Customers are encouraged to place orders using our Web Ordering. Orders may also be placed by telephone, fax, or email. Orders are generally due three days before your truck leaves, however, earlier deadlines may be assigned. Telephone orders are taken Monday - Friday on an individually scheduled basis. When calling, please have your entire order ready, including your customer number and product ID numbers and be prepared to make substitutions if necessary. Ordering Phone and Fax Numbers: see Who To Contact in the front of this pricelist Fax cover sheets and email orders should include your order person's name and phone number in case there are questions about your order, as well as your UNFI customer name and account #.

PRICING POLICIES: Your order is priced based on the DAY YOUR TRUCK LEAVES THE WAREHOUSE. Prices are not guaranteed and rapidly changing market conditions may result in occasional price changes.

RAINCHECKS: Rainchecks are available for out of stock or mispicked sale items. Rainchecks will be honored on your next scheduled order for the quantity ordered but not received in the previous order. Rainchecks are not available for: unadvertised specials/short date sales; discontinued products; and holiday-only items. How to get a Raincheck: Request rainchecks from the Sales Department when placing your order. If you use Web Ordering include your raincheck requests in the comment section. Include the product number, quantity previously not received and the sale price. Rainchecks are not issued by the credits department and no adjustments will be made after shipping.

CREDITS & ADJUSTMENTS: One person from your group should be responsible for communication with us and follow through for all claims for your members.

Frozen and Refrigerated Items: Credits for frozen and refrigerated product can only be issued by the driver at the time of delivery. Customers are responsible for carefully checking all frozen and refrigerated product for problems before the driver completes the paperwork.

Credits & Adjustments at Delivery: The driver can issue credits for other missing, mis-picked or damaged goods at the time of delivery.

...October: Fair Trade Month continued from cover.

them here: http://www.fairtradeusa.org/resource-library/downloads

By utilizing these resources and supporting Fair Trade in the month of October, you can help drive sales and increase impact for farming communities around the world. In 2010, Fair Trade USA industry partners once again drove record imports to satisfy the continuing growth in consumer demand for the more than 9,500 Fair Trade Certified products now available in 60,000 U.S. retail locations. Furthermore, this growth in availability continues to parallel the growth in consumer awareness of Fair Trade, which has quadrupled in just a few short years.

Also, in efforts to protect the environment, the overall percentage Fair Trade Certified imports that are also certified organic skyrocketed to 62 percent, up from just 47 percent in 2009—efforts made possible by the $220 million in additional income back to farmers since 1998.

Join us this Fair Trade Month to continue this incredible momentum and support a system that benefits businesses, consumers, farmers and the earth. October is the month to make “Every Purchase Matter.”

In the know about "O"

Organic Foods Offer an Alternative to Foods Containing Food Dyes & Pesticides which are Linked to Raising Children's Risk of ADHD

The Organic Trade Association (OTA) encourages consumers who wish to avoid exposing their children to pesticides and synthetic food dyes linked to possible increased risk of Attention Deficit Hyperactivity Disorder (ADHD) to choose organic foods when they shop.

"Organic food production and processing represent the only system that uses certification and inspection to verify that synthetic food dyes and chemicals are not used," said Christine Bushway, OTA's Executive Director and CEO. "Those seeking to minimize their exposure to these chemicals can look for the USDA Organic label wherever they buy food."

The U.S. Food and Drug Administration's (FDA's) Food Advisory Committee met March 30-31 to review whether there is a possible association between synthetic food dyes and children's risk of ADHD. Prompting the review were results from a 2007 study conducted by the University of Southampton in the United Kingdom, a 2008 petition from the Center for Science in the Public Interest asking FDA to ban the nine certified color additives currently allowed in foods sold in the United States that were cited in the Southampton findings, and action by the European Union in July 2010 requiring warning labels on the foods containing the color additives in question.

The U.S. President's Cancer Panel Report in May 2010 had exhorted consumers to choose food grown without pesticides or chemical fertilizers, antibiotics, and growth hormones to help decrease their exposure to environmental chemicals that can increase their risk of contracting cancer. This was followed by a study published in *Pediatrics* that concluded exposure to organophosphate pesticides at levels common among U.S. children may contribute to the prevalence of ADHD in these children.

> ***"Studies have increasingly shown the importance of minimizing young children's exposure to even low levels of chemical pesticides," said Bushway. Both the use of organophosphates and synthetic food dyes are prohibited in organic production."***

In 2010, the Center for Science in the Public Interest had issued a report, "Food Dyes: A Rainbow of Risks," citing health concerns posed by the nine currently approved dyes used on conventionally produced foods. These included allergic reactions, hyperactivity and even cancer.

During its meeting March 30-31, the Food Advisory Committee considered relevant data on the issue and advise FDA as to what action, if any, is warranted to ensure consumer safety. The Committee decided not to recommend banning or regulating dye additives found in food products at the time, but stressed the need for more research on the link between food dyes and ADHD.

FAIR TRADE USA
EVERY PURCHASE MATTERS

FAIR TRADE CERTIFIED

Get Involved!

October is Fair Trade Month — we are calling on you to take action!

Every October, Fair Trade USA engages supporters from around the United States, including brands, retailers, activists, consumers and the media, in a campaign to promote awareness and sales of Fair Trade Certified products. By driving traffic toward in-store purchases during this month-long promotion, the benefits of Fair Trade will reach an even greater number of family farmers in the developing world.

"Fair Trade is all about empowerment," says Paul Rice, President and CEO of Fair Trade USA. "The sales of Fair Trade Certified products make a positive impact for farmers, their families and the surrounding communities all around the world. By dedicating an entire month to the celebration and promotion of Fair Trade Certified products, we help increase product sales, which benefits both retailers and farm workers, and also allows consumers to vote with their dollars for a better tomorrow for everyone."

October is Fair Trade Month

This October, get involved and support a movement that truly makes a difference. There are a number of ways to get your store involved in Fair Trade Month and to help to save the world, one shopping cart at a time. Here are some ideas:

- Order FREE Point of Sale materials from the Fair Trade USA website: www.FairTradeCertified.org
- Create colorful end-cap displays highlighting various Fair Trade Certified products
- Stock up on new products through distributors using Fair Trade USA's Licensed Partners page at www.Fair Tradeusa.org/content/certification/licensees.php
- Use shelf talkers and channel strips to distinguish Fair Trade Certified products on the shelf
- Display Fair Trade Certified window clings to catch customers' eyes
- Sample/demo Fair Trade Certified products in your store
- Offer sample grocery lists of all Fair Trade products you carry
- Raffle off a gift basket filled with Fair Trade Certified goodies
- Feature Fair Trade Month in your monthly newsletter

Last but not least, don't forget to help spread the word! Tell your co-workers, family and friends about the benefits of Fair Trade and its positive impact on farming communities around the world. With your help, we can make this October the best Fair Trade month yet!

USDA Pesticide Data Show Startling Differences In Produce Residue Levels

Consumers wishing to avoid pesticide residues in food, water and on farms have a simple choice: choose organic products.

The annual Pesticide Data Program (PDP) summary released by the U.S. Department of Agriculture's (USDA's) Agricultural Marketing Service shows significant differences in pesticide residue levels measured on organic fruits and vegetables compared with their chemically grown counterparts. As to be expected, organic fruits and vegetables, on a whole, have far fewer levels of pesticide residues than conventionally grown produce.

"Organic production is the only system that uses third-party inspection and certification to verify that no toxic and persistent pesticides or synthetic fertilizers have been used," Christine Bushway, OTA's Executive Director and CEO, pointed out. USDA's pesticide testing program clearly shows organic is the gold standard for consumers wishing to avoid produce containing pesticide residues.

While the entire organic sector is growing at over 8 percent, organic fruits and vegetables are the fastest-growing category of U.S. organic products, growing by 11.8 percent in 2010 to reach nearly $10.6 billion. Organic represents nearly 12 percent of all U.S. fruit and vegetable purchased. Data collected by USDA's Economic Research Service show that although organic cropland and pasture accounted for only about 0.6 percent of U.S. total farmland in 2008, this percentage was far surpassed by organic carrots, representing 13 percent of U.S. carrot acreage, and organic apples, representing 5 percent of U.S. apple acreage.

> ***"We want to make sure consumers know of the availability and abundance of fresh organic produce, especially going into the summer season. There is no shortage of nutritious, tasty, safe and affordable organic produce for families across the nation," Bushway said.***

In addition to not allowing the use of toxic and persistent pesticides when growing organic fruits and vegetables, organic producers also must comply with U.S. food safety and other food regulations as well as the exacting standards of USDA's National Organic Program. The U.S. Food and Drug Administration (FDA) acknowledged that organic food is no more susceptible to food-borne pathogens than conventional produce.

Consumers wishing to learn more about the benefits of organic produce and how choosing organic products is easier and more affordable than ever can check out OTA's consumer website, www.organicitsworthit.org, and its Savvy Organic Shopper blog, www.organicitsworthit.org/blog.

The Strip — the first chip worthy of our delectable Green Mountain Gringo Salsa. A solid rectangle of pure leverage makes it stable enough for the most aggressive of dippers. Made from 100% Masa Harina corn flour, cooked in all natural Safflower oil and topped with a pinch of salt. You'll be glad we took the time to do it right!

this is your face™

Out with the bad: Volcanic ash and activated charcoal inside the Purifying Facial Cleanser (Step 1) and Purifying Facial Scrub (Step 2), work to extract impurities and remove makeup without drying skin. Acai and goji berry help recharge and rejuvenate facial cells.

In with the good: The Replenishing Facial Moisturizer (Step 3) contains maximum antioxidant power from green tea and fig, along with acai and goji berry, combined with high-performance hydrators to make skin feel soft, alive and restored.

A special treat: The Purifying Facial Mask (use as needed) contains a higher percentage of charcoal and volcanic ash to extract the deepest impurities.

This D:tox System® Facial Care joins the D:tox System® Body Care of Purifying Body Wash, Purifying Body Bar, Purifying Exfoliant Body Scrub, and Replenishing Body Lotion.

For sexy, soft, touch-worthy skin from face … to feet.
